

COMPASSS NEWSLETTER no 19 (Sep 2008)

COMPARative methods for the Advancement of Systematic cross-case analysis and Small-N Studies

Here is a quick digest of main recent complements on the COMPASSS international resource site

--1. NEXT COMPASSS INTIMATE SEMINAR, 26 Sept.

<http://www.compasss.org/COMPASSS%20activities.htm>

In Louvain-la-Neuve (Belgium). Topic : Fine-tuning of ongoing csQCA and mvQCA applications (3 presentations + discussions & data workshop). A few additional participants could still join (but NB they should be well acquainted with QCA ; this is a small-group seminar). Apologies for the late notification. For practical reasons, the seminar had to be organized at quite short notice.

--2. MODERNIZATION OF COMPASSS (soon)

Within the next 2-3 months (target : before end 2008), we are planning to completely modernize the COMPASSS pages (layout, site structure, new items & pages etc). If you have any particular suggestions in this regard, please send them to Benoit Rihoux & Damien Bol no later than 1 October.
