

# International QCA Paper Development Workshop 2018

ETH Zurich | Tuesday, 27. November 2018

The *International QCA Paper Development Workshop 2018* provides a unique platform for researchers working on papers involving QCA to meet QCA experts, get feedback on their on-going research, and learn about the latest methodological developments in QCA. The workshop is interdisciplinary and interactive and allows for in-depth discussions and individual feedback from internationally renowned QCA scholars. We invite submission of abstracts from researchers applying QCA in various domains (e.g., sociology, political science, management, evaluation studies, international relations, medicine, and health) as well as policy and business consultants using QCA in their work. This year's workshop faculty includes among others the following internationally renowned QCA scholars from various disciplines with substantive experience in using, developing, and teaching QCA:

- [Bart Cambré](#) | Antwerp Management School, University of Antwerp
- [Adrian Duşa](#) | Department of Sociology, University of Bucharest
- [Peer Fiss](#) | Marshall School of Business, University of Southern California, Los Angeles
- [Nadja Kunz](#) | Engineering and Policy Studies, University of British Columbia, Vancouver
- [Sophia Lee](#) | School of Social Policy, Ewha Womans University, Seoul
- [Axel Marx](#) | Leuven Centre for Global Governance Studies, University of Leuven
- [Valérie Pattyn](#) | Public Administration, Leiden University
- [Benoît Rihoux](#) | School of Political Sciences, Université Catholique de Louvain
- [Claude Rubinson](#) | Dept. of Social Sciences, University of Houston-Downtown
- [Alina Vladimirova](#) | Institute of Oriental Studies of the Russian Academy of Sciences
- [Jiji Zhang](#) | Philosophy Department, Lingnan University Hongkong

## Preliminary Workshop Program

The *International QCA Paper Development Workshop* primarily consists of roundtable forums for participants to receive detailed feedback from QCA experts on their ongoing research projects. The roundtable forums will take place in small groups with approximately two QCA experts and three to four participants to allow for in-depth discussions. The workshop program will also include two focused sessions providing participants with an overview of software packages for conducting QCA analysis and with practical insights relevant for publishing QCA papers (e.g., choice of journal, paper

structure). We will round up the workshop with a keynote speech from an established QCA scholar including drinks to interact and socialize.

### **Submission Procedure and Schedule**

To participate in the workshop, please submit an extended abstract of 1,000-1,500 words to [jmeuer@ethz.ch](mailto:jmeuer@ethz.ch) by **7 October 2018**. Your abstract should summarize your study's topical area, theoretical background, research gap and question, and include details about the data, analytical strategy (for empirical papers), and preliminary results. A panel of QCA experts will review all submissions and evaluate their fit with the workshop according to clarity of purpose, methodological rigor, and innovative character of the research. We will notify applicants no later than **19 October, 2018** about opportunities to participate. Accepted participants may submit a full paper by **13 November 2018**.

### **Workshop Fee, Hosting and Venue**

Participation in the workshop is free of charge. We will provide coffee, tea, and snacks during breaks. Participants will need to cover their own travel and accommodation expenses. We will provide a limited number of hotel rooms at a discounted price and are happy to help find suitable accommodation. The *International QCA Paper Developments Workshop* will take place at ETH Zurich. The workshop is hosted jointly by ETH Zurich, the Swiss Federal Institute for Aquatic Science and Technology (Eawag), the University of Bern, the University of Wuppertal, and the University of Bamberg.

### **The 6th International QCA Expert Workshop**

The 6<sup>th</sup> *International QCA Expert Workshop* will take place after the *Paper Developments Workshop*. Please note that because the *Expert Workshop* serves a different purpose, targets a different audience, and – for these reasons – is purposefully limited in the number of participants, participation in the 6<sup>th</sup> *International QCA Expert Workshop* is by invitation only.

More information is available on our webpage: <http://compasss.org/h/intlqca/>. If you have any further questions, please do not hesitate to contact us. We look forward to your submission!
